Lulu.com, United Kingdom, 2019. Paperback. Condition: New. Language: English. Brand new Book. The period before World War Two was often referred to as the 'phoney war'. In that troubled time, an agent for the Home office was sent to Germany under cover to try to find out what Hitler and his allies planned, the group later called the Axis of Evil. Zain Bridges finds to his horror that Hitler was worried about America being drawn into the new world war that was about to start. His scientists were working on a scheme to weaponise the bubonic plague so that it could be used against America, being released over their cities from the sky. It is also said that an Israeli agent fired a pistol into one of the tanks as the Hindenburg came in to land at the New Jersey field. Sailors from the nearby Lakehurst naval base ran to help passengers as the airship burned. However, nothing was left of the sixteen tanks and there was no way to prove that the airship was about to spread the plague. Was America that lucky, and is that why they are such good allies these days with the Jews?.
